Percentage of active 401(k) participants affected	0.6%				

\* Data not available.

\*\* Number of active participants may not reflect total number of workers affected by the 401(k) match suspension.

\*\*\* The total active number slightly overstates the actual total because some employees may be in more than one 401(k) plan at their firm.

Source: U.S. Department of Labor (2020) for number of participants. Companies suspending match identified by news accounts and company press releases.
